PROFILE

Creative professional with extensive experience in photography, videography, video editing, photo editing, and graphic design. Backed by a strong foundation in electronics, I blend technical precision with artistic creativity to deliver impactful visual content. Passionate about storytelling and inspired by diverse cultures through travel, I bring unique perspectives to every project. Dedicated to producing high-quality visuals that engage and resonate with audiences, I aim to create meaningful connections through innovative design and storytelling.

PROFESSIONAL EXPERIENCE

WEDDING MEDIA PRODUCTION

Photography and Videography Specialist : Experienced in capturing high-quality photos and videos, with expertise in editing and post-production. Proficient in using advanced cameras, editing software, and lighting techniques to create visually compelling content. Skilled in storytelling, composition, and meeting project deadlines with precision and creativity.

EDUCATION AND CERTIFICATE

Batcher Of Science (BS.c) ELECTRONICS

School of Technology and Applied Science, Edappally

Major : Semiconductor devices, digital electronics, analog circuits, microprocessors, communication systems, electromagnetic theory, instrumentation, electronic circuits, and VLSI design.

MEA(R)N Stack Web Development Expert - Angular & React

Highly skilled MEA(R)N Stack Web Developer with expertise in building dynamic, scalable, and high-performance web applications using MongoDB, Express.js, Angular, React, and Node.js. Experienced in designing and developing full-stack solutions with a focus on user experience, performance optimization, and responsive design.

Computer Hardware and Software

Gained expertise in computer assembly, troubleshooting, operating systems, software installation, networking fundamentals, and system maintenance.

PROJECT

Autonomous Firefighting Robot

- Developed an Arduino-based autonomous firefighting robot with fire detection, obstacle navigation, and a water-spraying system for extinguishing fires.
- Integrated GSM/GPRS modules to send real-time fire alerts, showcasing skills in embedded systems, robotics, and wireless communication.

SKILLS

- | | | |
|---------------------|------------------------------------|--------------------------------------|
| • Organized | • RAID & storage management | • System diagnostics & benchmarking |
| • communication | • Operations Analysis | • Networking setup & troubleshooting |
| • Critical thinking | • PC assembly & troubleshooting | • Peripheral device configuration |
| • Hardworking | • Hardware installation & upgrades | • Server hardware maintenance |
